

**First strange dream: I was  
dreaming, I was at home in one of  
the rooms when suddenly**

**I see someone familiar when I look  
at it carefully**

**I can see that it was Jesus Christ  
but**

**When I tried to talk to him, he  
didn't answer me**

**He was with a serious face, but  
looking at me**

**Representative image of how I saw  
it.**

**Only he was standing idly by and  
did not move no matter how much  
I talked to him**

**Many times, after a while**

**He finally moved and walked to  
the wall**

**And out of nowhere I grabbed her  
hand I don't know when it  
happened, but I pass**

**And out of nowhere he flew and we  
went through the wall**

**Until after I got to an empty room  
he wasn't with me anymore**

**And I was looking for it, but finally I  
woke up and told my mom**

**What I Dreamed and Saw the Face  
of Jesus Christ**

**I had this dream almost at the end  
of the year in 2019.**

**After the events of high school,**

I arrive on December 24, 2019 and my parents and my uncles and cousins.

They agreed to celebrate Christmas night,

However, I was still depressed and sad about everything that happened to me in high school

My parents told me to go out and kindly invited me

But I told them I didn't want to go out

And they kept insisting until I burst  
into tears

And I told them that I didn't want to  
go out or celebrate Christmas

And apart from that, I told them  
about the Mandela effect

And the weird things that happened  
to me

In high school, however, they didn't  
believe me

And they got angry with me while  
they argued with me

The music of my uncles and cousins  
was no longer heard

Everything was silent and after a  
while

They thought I was referring to  
roblox about parallel worlds.

In the end they left upset while I was  
drying off

The tears, some time later my  
cousin arrived

And he saw me crying, but he was  
honest with me

He said my parents thought I was  
crazy

Because of what I said, and I was  
devastated

But I decided better to go out and  
party

With them Christmas and in the end  
everything returned to normal.

When December 31, 2019 arrived

We were ready to ring in the new  
year

It was almost 12 o'clock at night but  
what I didn't know,

Nor is anyone that things were about  
to

Point of change then....

My decision not to have gone to the  
high school that day or to have left

When my parents asked me to  
for possible reconciliation with  
Number 9 would cause an effect

Butterfly that would trigger  
something

much worse than I imagined and  
it would also cause a domino effect

that would have its consequences  
on the  
next year, and would mark a before  
and after worldwide

When we finished celebrating the new year I proceeded to sleep

**Second strange dream: suddenly I was on a plane there were people**

**With Asian and Chinese features,  
my parents**

**They were also with me on the  
plane**

**I looked out the window of the  
plane and we landed in a place I'd  
never seen**

**And out of nowhere I showed up in  
a car with my parents**

**But on a radio station they said the  
following: they said that  
something had happened**

**And that we couldn't leave the  
cities**

**My parents and I were in shock**

**In the dream when I suddenly  
woke up agitated**

But I realized right away that something was wrong

For some reason I noticed that the environment, the lighting, the sun, etc.

They were different, and my mom talked to me agitated

That something was going on, but I told him to talk to me slowly

Since I didn't understand what was happening and why I was agitated

She calmed down a little and told  
me that people

Outside I was panic buying

And they were scared by a virus that

In the news they said that in China  
there were confinements due to the  
virus

And my parents decided to get ready  
while I slept, they had gone to a  
supermarket to do the shopping

I told my mom about the dream I  
had

And she told me the meaning of the  
dream

And in the end he went to what he  
was doing, and I, believe it or not, I  
could feel

People's panic and terror, but here  
comes the strange

I asked my mom what day it was,  
that is,

What month were we in and she told me a certain month and I stayed in but what the....

I told him that it was not possible that it was a certain month and such a day,

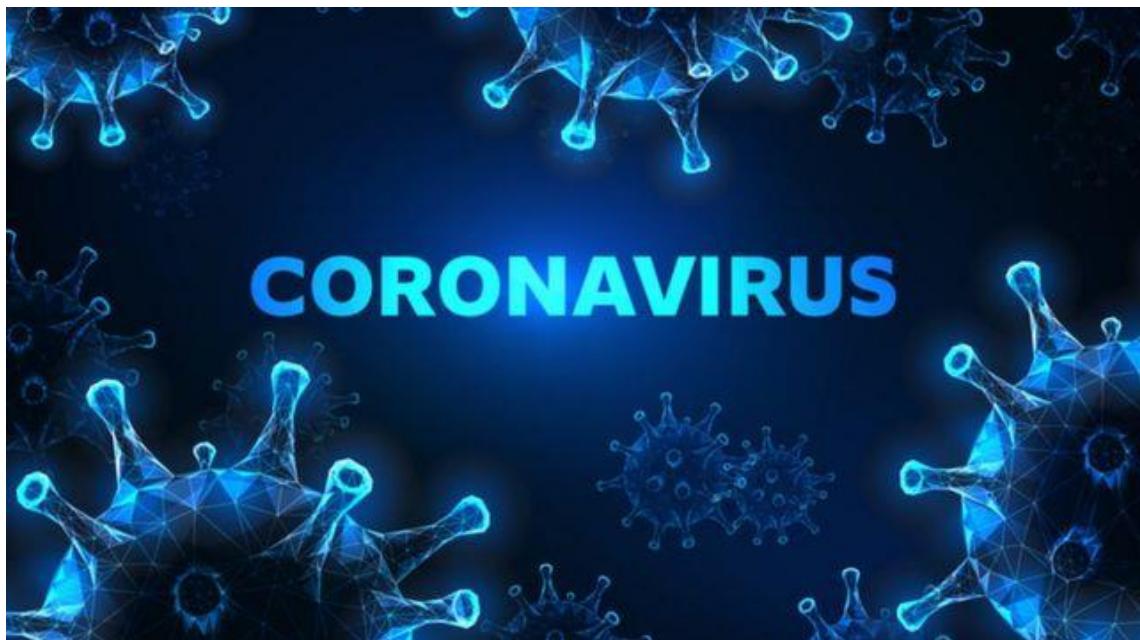

If yesterday was December 31, 2019

And it was supposed to be January 1, 2020

It was as if out of nowhere I had eaten a month

After that days later

My parents were still informed to  
see where

There was the virus through  
television, while I

He was researching the Mandela  
effect

And I wanted to know why it was  
happening

Until I came across a video which

He explained that in some way  
CERN was involved

In creating the mandela effect since  
a person

He took the time to analyze a video  
from CERN called **We are "Happy"**  
**at CERN**

We are "Happy" at CERN

Image from the video and exact moment where a bearded person holds the sign with the name of Mandela and the word bond1

And that person showed the symbolism of the video and apart from that at first he did not believe him

But after seeing that the person in the video

It showed with evidence the exact moment where someone appeared in the video holding the sign with the name Mandela,

It seemed strange to me and I went to check it to check it and indeed

That person was coming out, but for some reason when I saw the full video

From CERN gave me weird and strange vibes, I felt an inexplicable fear

And a chill ran through my body and  
I don't lie to you

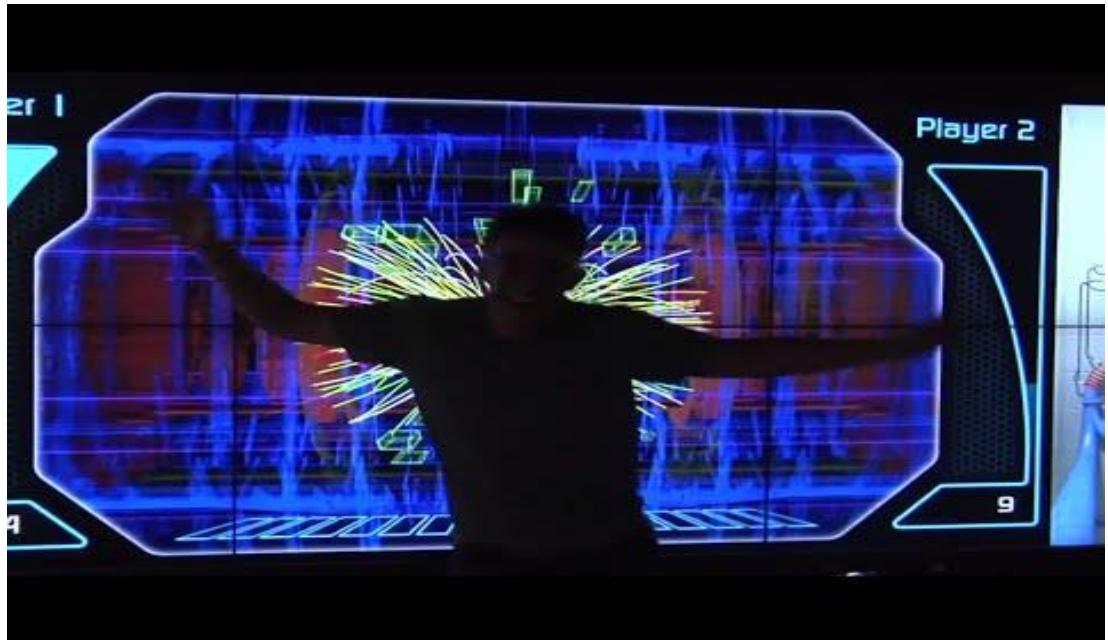

In my mind I told myself that I didn't  
even joke

Not even if I was curious to visit  
CERN or was paid to go

I'd never go to a place like that call  
me crazy, but that was

What I felt at that moment

Link del video [We are "Happy" at CERN](#)

After investigating the possible person responsible for causing the mandela effect

The days went by where I watched many videos of the Mandela effect

And the day came where in my country where I live

They declared that there were cases  
of COVID 19

The coronavirus arrived in my city  
and

declared a state of emergency and  
the truth is that it was something  
very unreal and

I was shocked by what was  
happening at the time

My parents were also  
shocked by the news that

There was the virus in our city after  
A few days passed and finally

declared a pandemic worldwide  
after that several days passed

**Third strange dream: I was in my  
old house from 2012**

**But even the rooms looked  
different**

**And the lighting was a little  
strange**

**But there seemed to be no one in  
the house**

**It was just me and I was watching  
around**

**When out of nowhere I saw that  
something caught my attention  
and I proceeded to grab it**

**And out of nowhere a giant  
cockroach attacked me, but I tried  
to defend myself**

**In the end I killed her but before  
waking up**

**Something unexpected happened  
and I will never forget**

**Out of nowhere my third eye  
opened**

**And when I opened it, I could feel  
that everything**

**This had happened before, that is,  
the dream**

**It became too familiar to me**

**Like I'd dreamed it all before**

**But the strange thing is that not  
only that**

**I knew what my mom was going to  
tell me**

**When I woke up and told her what I  
dreamed**

**And its meaning, for a moment**

**I hesitated to wake up, but I finally  
woke up.**

**When I woke up what I told them  
happened.**

**She told me that the dream meant  
that I opened**

My third eye, but someone attacked  
me or tried to attack me

And they wanted him not to open it,  
but they failed to do so.

After that my parents hired some  
people

To build a 2-story storey, because  
before

We were sleeping together, but we

We split the quarter in 2019

To make a long story short, in summary

As the days went by while they were doing the construction of the 2nd floor

I had an argument with my dad

For something, but in the end nothing serious

When they managed to finish the 2nd floor

My parents were the first to review  
the final result

And then my uncle came

And I talk to them, but I still had the  
feeling that all that had already  
happened

And I knew what was going to  
happen, but suddenly when I  
wanted to go up

To see how the 2nd floor turned out

Out of nowhere I had the feeling  
again

But I felt and saw that if I did certain actions

Everything would happen differently  
That is, it would have the same result but in a different way

For example, if I grabbed an object my uncle would go down the stairs

Or on the contrary, if I went up, something bad would happen

Those are the examples I showed you

In the end I chose the right option

And after that my dad came down  
and took me away

To the 2nd floor and also to the roof  
of the house

And I liked the result since it was the  
first time I was on a rooftop

Then one day I was going about my  
business when

Suddenly in the news they  
happened that China

He had found the cure for the coronavirus

Yes, just as you heard

And when they found the cure, they made a parade and even played a live show

Where they celebrated with balloons etc. and there were many people

Happy and celebrating for the achievement they made

## Representative image

And the worst thing is that the  
reporters said

That China was not going to give us  
the cure

And that we had to make the other  
countries of the world do our own  
cure

While they were celebrating, my  
parents heard and saw that

They were angry with China and sad  
Because of the situation it was  
something unreal for me

And surreal because even reporters  
looked worried

Why we now had to deal with the virus

However, remember what I told you

Why it will be important later

In the future, after that they passed

A few months in those months I managed

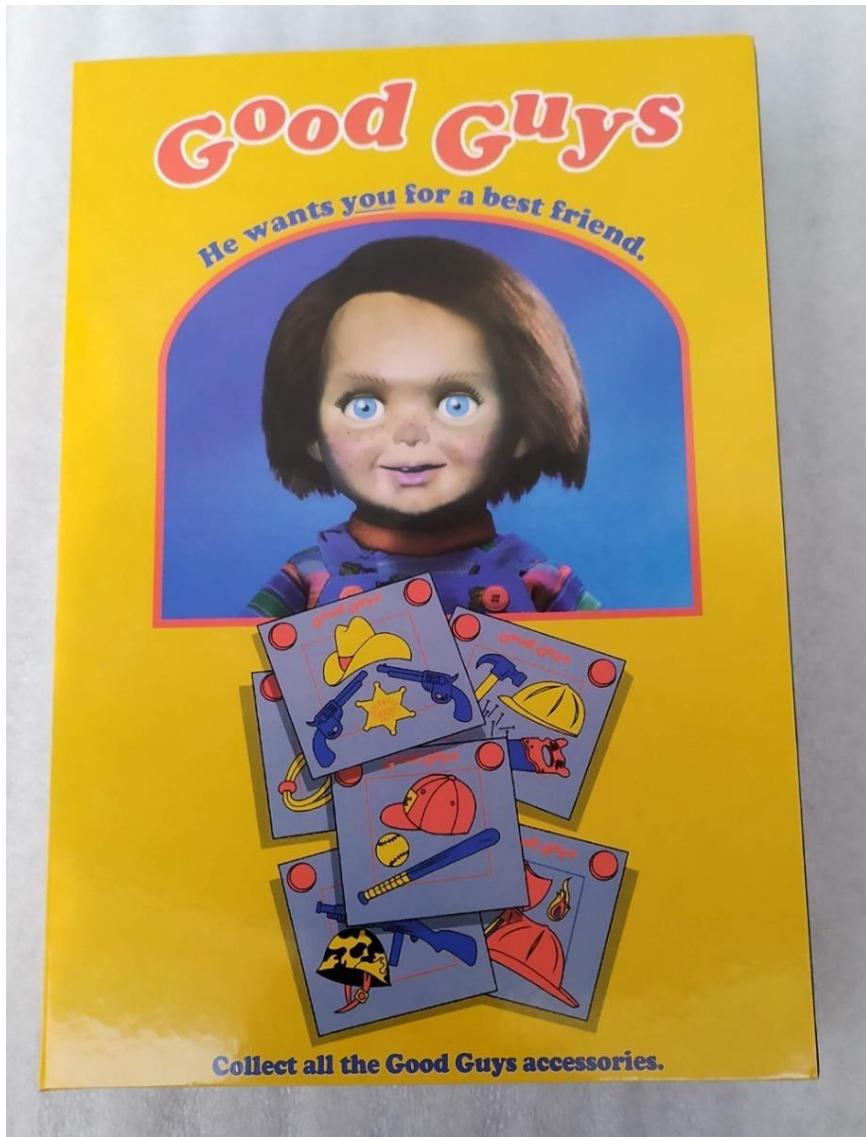

My first Xbox one s and other things

**The most ironic thing is that in the image the cabinet where the Xbox one is looks like one I had and literally it was the same, only that the TV was on the wall and not on the furniture**

My dad and I also went to the candy store

To buy my first chucky from the brand neca

And it was something that I liked and thanked

My dad, even though some things  
happened

But unfortunately I have to divide  
this into 2 parts

Since it is very long however to  
conclude

This when December 2020 arrived

Nothing out of the ordinary  
happened without

However, I will only say that the year  
2021

It brought me several unexpected surprises

That I didn't expect them to happen

**P.S. still had the weird feeling I told you**

**And then I'll tell you that more things happened**

This music that I leave here represents very well the mandela effect as it was in 2019 and 2020

When strange things started to  
happen to me

## Inner Sanctum
